

OSHA COMPLIANCE SERIES

presented by the **Chesapeake Region Safety Council**

Electrical Safety January 11, 2007 8:00 A.M. - 12:00 P.M.

Seminar Topics:

- Elements of OSHA Electrical Safety Regulation (29 CFR 1910.301-399, Subpart S)
- Key terms and concepts of electrical safety
- The importance of electrical safety-related work practices
- How to identify employees' appropriate training and protection requirements
- Four types of electrical injuries
- Protecting employees who work on or near to electrical conductors and equipment

Our safety professionals translate OSHA regulations on electrical safety into terms you can use and show you how to put them into practice.

Lockout / Tagout January 11, 2007 12:30 P.M. - 4:30 P.M.

Seminar Topics:

- Identify the key components of an energy control program
- Identify the six main elements that should be contained in lockout/tagout procedures
- Identify key elements of a periodic inspection of the energy control device to restore energy and equipment
- Recognize the importance of "best practices" for the most effective lockout/tagout program implementation and operation

Our facilitators are safety experts who will break down the regulation and answer your site-specific questions. National Safety Council safety experts will guide you through interactive discussions and pair activities relating to the OSHA lockout/tagout regulation.
