**May 3 - 7, 2010**

**8:00 am to 4:00 pm**

This class will begin at Noon  
on Monday May 3, 2010

**Location:**

**Howard Johnson's Hotel**

1109 Atlantic Ave.  
Ocean City, MD 21842

## Safety Management Techniques

(SMT) is designed to assist safety and health professionals who are responsible for managing employees and/or projects in safety and health efforts. SMT is part of the curriculum toward achieving the Advanced Safety Certificate

### Learning Objectives

Upon completing this course, participants will be able to:

- Create a safety and health management plan for their company or facility
- Use problem solving and decision making to help resolve their organization's safety and health issues
- Assess organizational practice and environmental conditions
- Develop a budget for their safety and health efforts

"This program, has been approved for 24.75 (General) recertification credit hours toward PHR, SPHR and GPHR recertification through the HR Certification Institute."

## The Advanced Safety Certificate

(ASC) is the National Safety Council's program for the development of safety professionals. Those who earn it can be justifiably proud of their accomplishments. It places them a cut above others in the field and tells their top management that they are better able to develop and implement an effective safety and health program. The ASC targets skills that increase compliance with regulatory standards, improve productivity and enhance employee participation in the safety and health process. Those who earn the ASC are better able to provide other employees with training needed to make a safety and health program work, and fulfill their responsibilities as part of management

"The use of this seal is not an endorsement by the HR Certification Institute of the quality of the program. It means that this program has met the HR Certification Institute's criteria to be pre-approved for recertification credit."

### Fee:

**\$1195 for Members \$1550 for Non-Members**

2.6 CEU's - Continuing Education Units awarded  
for this course 2.6 COC's
