POSH is a comprehensive, interactive training program on the terminology, principles, and practice of occupational safety and health. Whether you are implementing a new safety program, or improving an existing one, POSH will:

- Raise your awareness of more than 20 safety and health issues relevant to your industry, including recordkeeping, safety inspections, electrical and fire safety, personal protective equipment, and bloodborne pathogens.
- Give you a balanced perspective of these issues by addressing both technical and human aspects of occupational safety and health
- Show you how to organize an effective safety system and communicate it throughout your establishment
- Suggest best practices in safety and health that will help you protect employees
- Help you lay the groundwork for or improve an existing safety plan
- Identify the resources necessary to develop an effective workplace safety program
