

HAZWOPER 24 HR

HAZARDOUS WASTE OPERATIONS
AND EMERGENCY RESPONSE

TOPICS COVERED INCLUDE:

- Understand hazard and risk assessment techniques
- Hazardous Materials technician level PPE
- Be able to function within an assigned role in the Incident Command System
- Be able to perform advance control, containment, and/or confinement operations
- Understand and implement decontamination procedures
- Termination procedures
- Implement employer's emergency response plan
- Understand basic chemical and toxicological terminology and behavior
- Safe use of engineering controls and equipment on the site
- Medical surveillance requirements, including recognition of symptoms and signs of overexposure

This three-day (24-hour) course designed for individuals who respond to releases or potential releases of hazardous substances as part of the initial response to the site for the purpose of stopping the release. At this level, they can approach the point of release to plug, patch or otherwise stop the release of hazardous substance.

This program is also designed for workers who are on site with hazardous substances for a specific task, and who are unlikely to be exposed over the permissible exposure limits and do not require respirators. *These workers will also need one day of field experience from a supervisor, not offered through this course.*
