

# RISK MANAGEMENT FUNDAMENTALS CERTIFICATE PROGRAM

## PART I - HOW IT CAN WORK FOR YOU

Basics and fundamentals of risk management. Defines the process and helps you identify your business risks and your assets exposed to loss. Discussion on effective and efficient methods to address these exposures.

## PART II - RISK FINANCING COST EFFECTIVE INSURANCE, AND CLAIMS MANAGEMENT

Risk management techniques and risk financing methods. Risk financing by insurance transfer will be covered in depth, including an understanding of broker and carrier relationships, specification details and proposal reviews. Methods to capably manage the insurance claims process, including workers compensation, general liability, auto, property coverages and approaches to insurance purchasing.

## PART III - RISK CONTROL MEASURES, PROGRAM MANAGEMENT AND THE RETURN ON INVESTMENT

Risk control techniques detailing methods of prevention, reduction, duplication and avoidance for typical business risks. Practical methods for addressing common contract risk issues, including leases, OCIP/CCIP/Wrap Program management and certificates of insurance. Discussion on establishing your Risk Management program, methods for benchmarking performance, measuring your returns and the true cost of risk.
